

MauiPassport™

Wider views. *mastered.*

Experience unmatched clarity in the widest field of view possible. That's what you'll get in a pair of MauiPassport™ Prescription Sunglasses with PolarizedPlus2®. Maui Jim's exclusive compensated lens design fabricated with digital precision means a wider, clearer and more vivid view—without glare or harmful UV.

Lens options:

- Single vision and progressive
- Maui Evolution® 1.60: Neutral Grey, HCL® Bronze, Maui Rose™ and Maui HT™
- Polycarbonate: Neutral Grey, HCL® Bronze

CONVENTIONAL RX LENS

MAUIPASSPORT™ LENS

- Wide field of view
- Digital lens surfacing ensures optical perfection
- PolarizedPlus2™—brilliant color without glare or harmful UV

Color *mastered.*

Maui Jim sunglasses eliminate glare and boost colors so blues are truer, greens are brighter and reds are more vibrant.

Bright, direct sunlight

Neutral Grey

For bright, direct sunlight. The highest available light reduction—no more squinting. Rich color and contrast.

Full sun to overcast

HCL® Bronze

For everyday variable conditions. Provides excellent contrast. Great if you love a warm, subtle bronze tint.

Maui Rose™

For everyday variable conditions. The highest contrast available. Provides a subtle rose hue.

Low light

Maui HT™

For times when most lenses would be too dark. More contrast and color for low light and variable light conditions.
