DESIGN
Standard progressive lenses are designed for the most common daily activities. Athletes have different visual needs for their unique sport. Oakley True Digital Sport-Specific progressive lenses deliver optics designed for their sport.

COLOR
Oakley proprietary sport tints boost color contrast to enhance performance in each sport environment.

COATING
Oakley Stealth™ is engineered for the needs of athletes and sport enthusiasts. It reduces backside reflections, repels dust, water and oil with industry leading durability.

FINISH
Finished with excellence, every Oakley True Digital Sport-Specific progressive lens uses our custom database to digitally tailor lenses to the frame and Rx. The result is the best aesthetics and vision possible.

ROAD CYCLING

THE AUTHENTIC OAKLEY ADVANTAGE

THE PROBLEM
A cyclist’s head position and visual environment create unique optical demands that are not met by standard progressive sun lenses.

THE SOLUTION
Using proprietary technology, Oakley delivers a progressive lens specifically designed for the road cyclist.

STANDARD LENS

CYCLING LENS

RIDING ZONE
A cycling-specific distance zone, up to 20° above the fitting cross, provides sharp vision at a rider’s natural head position: chin down, eyes rotated up.

ELECTRONIC ZONE
A cycling-specific intermediate and reading zone, allows the rider a clear view of the bike computer without hiding road obstacles hidden by a wider near.

RECOMMENDED LENS TINTS
